On June 17, 2026, a U.S. District Court for the Eastern District of Missouri remanded the class settlement case King v. Monsanto back to Missouri State Court. The U.S. Supreme Court heard arguments in Monsanto v. Durnell over whether companies must warn of state-identified risks not flagged federally, and is expected to issue an opinion before its term ends in late June 2026. Bayer has proposed a \$7.25 billion settlement to resolve current and future non-Hodgkin lymphoma claims, with about 170,000 Roundup claims filed as of June 2026. Bayer argues federal law bars the suits because the EPA found glyphosate not likely carcinogenic when used as directed.
