카드 요약 / 당시 확인 내용

Mordor Intelligence values the global biopesticides market at USD 7.46 billion in 2026 (up from USD 6.72 billion in 2025), projecting growth to USD 12.65 billion by 2031 at an 11%+ CAGR. Growth is driven by regulatory restrictions on synthetic pesticides in the EU and North America, expanding organic farmland, pest resistance to conventional chemistry, and lower fermentation production costs. North America leads market share while Asia-Pacific adopts rapidly. Key players cited include Corteva Agriscience, Valent BioSciences and Marrone Bio Innovations.
