The Global Methoxyfenozide & Diamide Insecticides Market was valued at USD 3 billion in 2025 and is estimated to grow at a CAGR of 6.4% to reach USD 5.6 billion by 2035, according to a study released August 14, 2026. The market is witnessing steady expansion as agricultural producers increasingly adopt selective crop protection products, with demand shifting away from conventional broad-spectrum insecticides toward advanced formulations offering targeted pest control. Major companies named in the report include Nufarm Limited, Adama Ltd. and Bayer CropScience AG. Deployment of targeted insecticides for specialty crops by Syngenta and Bayer CropScience is cited as a driver of the shift.
