iGrow News reported on July 13, 2026 that fertilizer prices for July 6 - 13 split sharply along nitrogen and phosphate lines. Urea climbed to \$395 per ton, up 4.77% for the week, after France's July 9 emergency nitrogen subsidy of EUR50 - EUR70 per tonne triggered buying and pushed French straight urea from EUR460/t to EUR495/t FCA within 48 hours. DAP rose to \$765 per ton, up 2.00% for the week and 22.40% year to date, as Russian and Kazakh sulfur export bans removed an estimated 4.2 million tons of annual sulfur supply needed for phosphoric acid and MAP.
