카드 요약 / 당시 확인 내용

Roquette announced the launch of NEOSORB AG, a new plant - based multifunctional polyol range developed for sustainable agriculture formulations, on 25 June 2026. NEOSORB® AG L20 is a liquid blend of polyols such as sorbitol, maltitol and mannitol that are naturally unreactive and highly compatible with other bioactive compounds, used as a humectant, plasticizer and raw material for biostimulants in agricultural applications. NEOSORB sorbitol, NEOSORB AG and mannitol are proven formulation aids that stabilize and prolong shelf life by limiting fluctuations in water content.
