카드 요약 / 당시 확인 내용

Rovensa Next, a global leader in agricultural biosolutions, is playing a key role in the BIO2 initiative, a € 6.4 million Horizon Europe - funded project focused on developing next - generation biofertilizers and microbial solutions from renewable and circular resources. The four - year project, coordinated by Italy's National Research Council (CNR) with 20 organizations from eight countries, aims to deliver results by 2029 using marine byproducts, recycled nutrients and beneficial microorganisms. Rovensa Next leads biofertilizer characterization, formulation development and product scaling, with field trials across Germany, Italy, Latvia, Norway and Spain on wheat, potato, strawberry and table grapes.
