카드 요약 / 당시 확인 내용

18 June 2026, S ã o Paulo: Brazil's Ministry of Agriculture and Livestock (MAPA) has officially established the Unified System for Information, Filing and Electronic Evaluation (SISPA), a single digital platform for the registration and post - registration evaluation of pesticides. SISPA consolidates applications previously dispersed across federal agencies handling agriculture, health and environmental assessments. Enrollment runs in phases: component registration and trade names May 27 – August 24, 2026; technical products migration August 27 – October 24, 2026; equivalent technical products October 27, 2026 – February 22, 2027; formulated products and premixes February 24 – June 23, 2027. All submissions must move exclusively to SISPA; failure to migrate risks rejection or registration cancellation.
