카드 요약 / 당시 확인 내용

Health Canada opened consultation on proposed maximum residue limits for spiropidion on June 23, 2026, with consultation closing September 6, 2026. The proposal covers MRL increases for foliar uses on bell peppers, tomatoes, cantaloupes, cucumbers, pumpkins, watermelons and winter squash grown in Canada, and new MRLs for leafy vegetables, Brassica vegetables, grapes, fruiting vegetables, cucurbits and pome fruits. The document notes a proposal from Syngenta Canada to register Spiropidion Technical Insecticide and A20262 Insecticide for multiple Canadian uses.
