카드 요약 / 당시 확인 내용

On August 25, 2026, Indigo Agriculture announced the launch of ENAI, an independent agricultural biologicals company created to accelerate innovation, strengthen industry partnerships and advance the next generation of biological crop protection and plant performance. ENAI combines endophyte plant science, large - scale field testing and proprietary intelligence to accelerate microbial discovery. The business has assembled one of agriculture's largest collections of beneficial endophytes and a total collection of more than 38,000 microbial strains, with its technology portfolio evaluated in more than 7,500 field trials across a wide range of crops, environments and production systems worldwide. Products, commercial materials and digital channels will transition from Indigo to ENAI through a phased global rollout over the coming months, while Indigo Carbon will continue to operate under the Indigo brand.
