Vylor launched private exchange offers targeting up to \$1.6 billion in senior notes, seeking to swap all outstanding senior notes due 2030, 2032 and 2033 issued by EIDP, Inc. for new Vylor - issued notes. Vylor established credit facilities totaling \$7.25 billion combined with an anticipated \$1.1 billion cash position at separation. The exchange offers remain conditional on completion of the separation, expected around October 1, 2026, and on securing majority bondholder consent.
