카드 요약 / 당시 확인 내용

IFFCO - MC Crop Science launched Mitsuki, a patented fungicide combining thiophanate methyl and picoxystrobin, for paddy crops to manage sheath blight, blast and grain discoloration. Mitsuki is the company ' s first patented fungicide registered under Section 9(3) of the Insecticides Act. The launch took place at SwarnArambh 2026 in Chandigarh with more than 350 participants. The company also introduced NexaWet, a citrus peel - derived silicone adjuvant to enhance spray efficiency.
