카드 요약 / 당시 확인 내용

Mosaic reported second quarter 2026 phosphate net sales of \$1.246 billion compared with \$1.173 billion in Q2 2025, though sales volumes declined to 1.4 million tonnes from 1.5 million tonnes, and the segment reported an operating loss of \$104 million. Potash net sales were \$650 million, down from \$711 million, while operating earnings held at \$195 million versus \$194 million, with MOP costs of \$84 per tonne. Sulfur supply constraints forced phosphate production curtailments, and in the third quarter the company took steps to temporarily curtail additional production at phosphate facilities in North America and Brazil. Third quarter guidance calls for phosphate volumes of 1.1 - 1.4 million tonnes with DAP prices of \$820 - \$840 per tonne and potash volumes of 2 - 2.2 million tonnes with MOP prices of \$270 - \$290 per tonne.
