카드 요약 / 당시 확인 내용

The article reports that manufacturers introduced more than 45 new technologies across herbicides, fungicides, insecticides, biologicals, seed treatments, and plant health solutions during 2026. Major companies featured with product launches include ADAMA (Novali SC, Marathon, Phenatic, Galil Nano, Ateka, Dicamba 4L DGA), BASF (Basta ULTRA, Liberty ULTRA), Bayer Crop Science, Corteva Agriscience, FMC, Syngenta (including VIRESTINA), and UPL. The article notes these innovations address herbicide-resistant weeds, increasing disease pressure, and changing regulatory requirements, and aim to improve farm productivity while reducing environmental impact across regions including the United States, Brazil, Argentina, Mexico, and Australia.
