The Federal Register published EPA ’ s notice on July 6, 2026 for pesticide product registration applications seeking new uses that were received in April 2026. The notice opens a public comment period ending August 5, 2026. It is part of EPA ’ s FIFRA process for disclosing registration actions and allowing stakeholders to comment before the agency acts. For crop - protection markets, these new - use filings are early signals of label expansion and future commercial positioning for existing active ingredients.
