카드 요약 / 당시 확인 내용

Global Agriculture reported on July 10 that CPI joined COCO - AI, a € 6.3 million Horizon Europe project exploring how engineering biology and artificial intelligence could help build more resilient and sustainable natural - ingredient supply chains. The article frames the project around climate change and supply - chain disruptions affecting cocoa production. For crop - protection and biologicals markets, the relevance is the movement toward AI - assisted diagnosis, engineered biology and resilience tools for disease - and climate - stressed tropical crops.
