카드 요약 / 당시 확인 내용

USDA Agricultural Marketing Service published a Farm Production Cost Report PDF in July 2026 showing current synthetic fertilizer asking prices. The report listed anhydrous ammonia at \$840.00 - \$1,210.00 with a \$1,057.50 average, MAP at \$840.00 - \$980.00 with a \$905.00 average, white potash at \$445.00 - \$550.00 with a \$499.58 average, and urea at \$595.00 - \$890.00 with a \$752.50 average. These price levels indicate continued pressure on farm budgets and support demand for nutrient - efficiency tools.
