카드 요약 / 당시 확인 내용

EPA published a Federal Register notice announcing receipt of, and soliciting comments on, applications to register new uses for currently registered pesticide active ingredients. Among the applications are inpyrfluxam (a fungicide) proposed for use on pome fruit group 11 - 10, and fluazaindolizine (a nematocide) proposed for use on turf. The notice provides a public comment window, with comments due on or before July 13, 2026. The actions are processed under FIFRA through EPA's registration review and new - use application framework.
