카드 요약 / 당시 확인 내용

UPL, through its subsidiary SWAL, secured Fertilizer Control Order (FCO) registration in India for Bioclassic, the flagship biostimulant from its Natural Plant Protection (NPP) biologicals business. Bioclassic is a proprietary fermentation - derived soluble concentrate applied twice at ultra - low doses during the vegetative stage to boost branching and photosynthesis, with field trials showing efficacy across varied climate and soil conditions. UPL also obtained registration for four additional biostimulants: Opteine, Gaxy, Macarena and Pilatus, expanding its Indian biosolutions portfolio.
