카드 요약 / 당시 확인 내용

GB's glyphosate approval expires December 15, 2026 and the renewal is entering a decisive phase, with an HSE public consultation expected and a final decision targeted for Q4 2026; approval could be renewed for up to 15 years. The Glyphosate Renewal Group submitted 11 dossiers containing 122 technical documents plus over 1,100 published papers from an 8,600 - study literature review. A key GB/EU divergence is pre-harvest (desiccation) use, which the EU banned but GB data supports for wetter northern regions. PAN UK opposes renewal, arguing for a five-year maximum and stricter conditions.
