## 카드 요약 / 당시 확인 내용

Brazil's Ministry of Agriculture and Livestock (MAPA) confirmed that it will extend the August 24th, 2026 deadline for pesticide registration holders to upload component registrations into SISPA, the single electronic system for assessing pesticide registration applications established under Law No. 14785 of December 27, 2023. The original deadline was set by Ordinance SDA/MAPA No. 1631 of May 26, 2026. According to MAPA, the postponement considers the time required to implement system improvements, the need for further discussions with associations representing the component industry, and the time requested by regulated companies to complete the required registrations. The extension ordinance remains in internal administrative procedures and MAPA has not yet disclosed the new deadline.
