Corteva's Board of Directors approved on September 14, 2026 the separation of Corteva into two independent, publicly traded companies through the separation of its seed operating segment into Vylor Inc. The distribution is expected to occur prior to 9:30 a.m. New York City time on October 1, 2026, with Vylor expected to list on the New York Stock Exchange under ticker symbol VYLR following completion. The remaining Corteva will operate as a differentiated, asset-light, innovation-driven crop protection company under future CEO Luke Kissam, while Vylor becomes a standalone advanced seed and genetics company.
