카드 요약 / 당시 확인 내용

Lucknow - based India Pesticides Limited secured two regulatory clearances: a UK Technical Equivalence approval for an insecticide product and a formal product registration in Argentina for a herbicide product, with specific active ingredients not disclosed (reported September 18, 2026). The company frames the clearances as validation of manufacturing quality against international standards, with approvals in stringently regulated markets like the UK positioned to facilitate registrations elsewhere; Argentina is a major consumer of crop protection products for its soybean, corn and wheat programs. Q1 FY2027 (ended June 2026) consolidated revenue was Rs 251.76 crore (down 8.51% YoY) with net profit down 34.82%; full - year FY2026 revenue was Rs 1,057.42 crore. The stock jumped 6.45% on the NSE following the announcement.
