카드 요약 / 당시 확인 내용

DTN's retail fertilizer survey for the first week of September 2026 showed six of eight major fertilizers slightly lower than the previous month, with no nutrient moving 5% or more. Prices per ton: potash \$494 (down 1%), urea \$658, 10 - 34 - 0 \$717, anhydrous \$938, UAN28 \$430 and UAN32 \$457 all lower; DAP \$923 and MAP \$962 slightly higher. Year - over - year, seven of eight nutrients are higher than September 2025: potash +1%, urea +4%, UAN28 +4%, MAP +5%, DAP +7%, 10 - 34 - 0 +8% and anhydrous +22%, with UAN32 down 5% the exception. The Iowa Corn Growers Association said American farmers are being bled dry by fertilizer prices, which have generated over \$20 billion in profits for fertilizer shareholders within the past five years.
