카드 요약 / 당시 확인 내용

The 7th Labor Court of Brasilia, presided by Judge Gustavo Carvalho Chehab, ordered on September 4, 2026 a temporary 90 - day suspension of new registrations and authorizations for glyphosate - based herbicides, covering new identical products, phytosanitary use extensions and registrations by equivalence. The Labor Public Prosecutor's Office had sought cancellation of all glyphosate registrations and a complete prohibition on production, commercialization and use, which the judge rejected for insufficient evidence, stating the measure does not amount to a ban and does not cancel existing registrations. The court found urgency (periculum in mora) regarding new approvals while re - evaluations remain outstanding under Law No. 14,785/2023, and tasked Anvisa, the Federal Government, Ibama and the Prosecutor's Office with submitting environmental data, re - evaluation status and impact assessments within 20 days.
