카드 요약 / 당시 확인 내용

The Insecticides (Amendment) Rules 2026 (G.S.R. 493(E)), notified June 17, 2026, take effect September 15, mandating full digitization of licensing and compliance across India's pesticide sector. All applications for manufacturing and retail licenses must be submitted exclusively through a digital portal, with paper-based applications no longer accepted. Manufacturers, importers, distributors and dealers must transition to electronic stock registers and digital record-keeping for production, import and sales data, with monthly electronic returns required within 15 days of month-end covering all insecticide movements. Government inspectors must digitize and submit field inspection records within 24 hours. Manufacturing license fees remain unchanged at Rs 2,000 per product, capped at Rs 20,000 per applicant. Industry concerns persist about digital readiness among smaller rural dealers where internet connectivity and portal familiarity remain uneven; no extension beyond the 90-day window has been announced.
